

# Cardboard Tube Unicorn

Courtesy of Easy Kids Crafts <https://youtu.be/MNN8yIlf-zQ>

Flatten a cardboard tube and draw this design on it. Markers or crayons work great for this.

Carefully cut out the shapes with scissors

Fold the top 1/2 inch of the neck forward to create a flap where the head will sit. Glue the head to this flap.

If you choose to paint the body use any color(s) you like. Get creative and have fun with it!

Draw on a face and make a horn out of the cardboard scraps. Glue the horn to the top of the head and let it dry.

Use something like string, colored paper, scraps of fabric, etc. to make a mane and tail. Voila!
